AN FISH— C IN EVERY

From the smoking room to the final seal, each detail is cared for with precision.

No shortcuts. No compromises. Only the finest ingredients, skilled hands, and a century of mastery behind every product.

HANDCRAFTED GOURMET FISH SINCE 1907. BORN ON THE BALTIC COAST, REFINED BY TRADITION AND TIME. EVERY TIN IS A MARK OF CRAFTSMANSHIP, ELEGANCE, AND TASTE

OUR HISTORY

1907

Our great story begins!
The first fish canning factory was built in Engure by the order of well known at the time confectionery and canned fish manufacturer "L.W. Goegginger".

1931

Engure fish canning factory becomes the exclusive owner of "Diplomats" brand.

1987

The renovation of packing area has been completed. The old part of production facility is connected with the new one. A boiler house has also been built, which supplies heat also to the entire town of Engure. New refrigeration equipment has been installed.

1992

Independence of Latvia is being restored and "Padomju Zvejnieks" (Soviet fisherman) ceased to exist. The company was given its current name - Unda. For the first time in the company's history, production was organized in 2 shifts.

1955

The port of Engure is being expanded and deepened with state support. This opens up opportunities for the industry to grow and expand.

1965

The rodding area is being reconÃ structed - concrete floors are built, second "Quernerbrook" smoking furnace was installed.

1966

Sprats production was organized according to a new technological method, which allows to ensure even better quality of raw materials and improve exporting opportunities to new markets.

2021

“Unda” has been recognized as the winner in the nomination “Company of the year in fish processing” in Latvia.

2023

Marked the opening of the world’s first Diplomats concept store — in Engure, Latvia.

WE RESPECT THE PLA
NATURE, AND ALWAY

Future generations must be able to enjoy seafood and oceans full of life, so we buy wild caught fish from fisheries that have been certified to the MSC Fisheries Standard, a set of requirements for sustainable fishing.

We use solar energy from our own solar park located in our premises. Solar energy is one of the ways we can help to prevent the effects of climate change.

We use liquified natural gas (LNG) in our production. It is better than any other fossil fuel for the environment. The combustion of natural gas releases significantly less CO2, NOx and SO2 and virtually no ash or particulates.

We are Clean label - clean label means making a product using as few ingredients as possible, and making sure those ingredients are items that consumers recognize and think of as wholesome—ingredients that consumers might use at home.

ANET, CHERISH
YS PUT YOU FIRST

We proudly put the Highest Quality Guarantee label on all our products because each product in our facility is produced with love and great responsibility.

Our products are naturally smoked according to local traditions and in accordance with highest product safety requirements.

Hand packed products - our sprats, brisling sardines and most other products are produced using qualified hand work.

GMO Free – we use no genetically modified organisms (GMOs) in our production.

Our products are safely and naturally sterilized and have a long shelf life of up to 4 years.

IFS
Food

Production process is organized and constantly improved based on high quality and safety requirements of International Food Standard (IFS).

ENGURE SMOKED SPRATS IN OIL

TRADITION FROM THE BALTIC. ESSENCE OF THE SEA.

Crafted from wild-caught sprats fished in the Baltic Sea, this product is a tribute to the region's rich maritime heritage. Naturally wood-smoked and preserved in sunflower oil, it offers a delicate balance between flavour and symbolism.

The sunflower oil reflects the warmth and brightness of summer, while the sea salt captures the strength and timeless presence of the Baltic — ever shaping the coast and its people.

FROM ENGURE, WITH TIMELESS RESPECT FOR THE SEA — AND FOR THOSE WHO LIVE BESIDE IT.

These sprats are more than a delicacy — they are our heartfelt tribute to over a century of collaboration with Engure, a fantastically beautiful seaside village.

A place where hardworking, honest people have helped keep traditions alive with care, dignity, and dedication.
